Military Trivia

1. The Navy's bell-bottom trousers are commonly believed to be introduced in 1817 to permit men to roll them above the knee when washing down the decks and to make it easier to remove them in a hurry when forced to abandon ship or when washed overboard. In addition, the trousers may be used as a life preserver by knotting the legs and swinging them over your head to fill the legs with air.
2. James Buchanan
3. 1947
